LILIES OF QUALITY

LILIUM HARRISII (True Bermuda Easter Lily)

Boddington's Quality Brand Pure Harrisii

Mr. Boddington visited Bermuda last Spring, for the express purpose of looking into the Lily situation, examining the growing fields of Lilies and securing the finest and cleanest stock on the island. He was successful in doing this, so that we can with confidence offer the bulbs quoted below. The examination of growing crops is in keeping with our policy to secure only the best, even at an advanced price, and successfully to uphold the quality which we aim to sell.

SELECT NAMED DUTCH HYACINTHS

Don't be misled by low offers and cheap prices if you are looking for results

We buy only the very best goods in the following. Intending purchasers can rely upon all bulbs being thoroughly ripened, fully up to specified size and "quality" and true to name. We offer four sizes—Top-root, First, Second, Third or Named Bedding. These are Holland Standard sizes. We do not buy seconds and send out as first size, or third size and send out as second size, which device is usually practiced by firms who make ridiculously low prices. You can rely upon our goods.

Decoration Day, or May-Flowering TULIPS

It is surprising that these grand Tulips have not been more largely planted. As an early display, they are magnificent in their beauty and coloring, coming into flower, as they do, from **May 15 to the first week in June**, according to the season, and are most useful from a decorative point of view, after the early-flowering Tulips are past. The colors are various, as described in the following varieties, and their height, after being well established, **reaches nearly three feet in some types**. After planting, they need not be disturbed for years. There are many other beautiful late-flowering Tulips, but the following are a few of the most distinct varieties. Every florist, large or small, should invest in these late Tulips; they are indispensable at Decoration Day time, and, as stated before, when planted once are permanent and will pay you handsomely.

Bizarres. Handsome, rich flowers, with yellow ground, feathered or striped with crimson, purple and white; finest mixed.....\$1 00 \$9 00

Bouton d'Or. Has deep clear yellow, globular medium-sized blossoms, with curious black-anthered stamens..... 1 25 11 50

Bybloems (Violets). Late Tulips, with white ground, blotched, striped or feathered with lilac, purple, violet, blue or black; finest mixed..... 1 25 10 00

Bybloems (Roses). Superfine mixed..... 1 40 12 75

Darwins. Very large flowers of good shape, on tall, strong stems; for brilliancy of color they surpass any other Tulip; they include every known shade from the lightest tint to the brightest hue; finest mixed. (For named varieties, see page 9.)..... 1 00 9 00

Elegans. Dark crimson, beautifully reflexed..... 1 75 15 50

Flava. Beautiful soft lemon-yellow..... 3 75 35 00

Gesneriana macrospila. Crimson-scarlet, black and yellow center..... 1 00 8 75

Gesneriana spathulata, or major. This variety has long been in cultivation. The beautifully curved flowers are brilliant scarlet, with a bluish-black center, on tall stems. A large group of this Tulip massed by itself looks very striking.....\$1 25 \$11 50

Gesneriana lutea. Beautiful, yellow, tall and handsome..... 1 75 16 00

Gesneriana Ixodes. Fine yellow with black center..... 5 75 55 00

Greigi. The beautifully formed flowers are of large size and of a gorgeous orange-scarlet color. Doz. 75 cts..... 6 00

Inglescombe Scarlet. Very brilliant scarlet, black base..... 2 00 18 00

Inglescombe Yellow. A large canary-yellow, perfect form..... 4 50 42 00

Inglescombe Pink. One of the best pinks..... 1 50 14 00

Isabella, or Shandon Bells. The petals are a rose color, flushed or flaked with white when they first open, and after two or three days it changes to a suffused deep rose and red color. Remains longer in bloom than many others; stands well when cut. 1 00 9 00

La Merveille. A magnificent variety with very large, sweet-scented blossoms. Salmon-rose, overlaid with orange-red. A grand border variety. 25 cts. per doz., \$1.00 per 100, \$8.50 per 1000.

Mrs. Moon. The finest late yellow; beautifully reflexed petals. A charming variety. 50 cts. per doz., \$3.50 per 100.

Maiden's Blush, or Picotee. Clear white, margined on the edge with pink. The flower is beautifully curved, but it is somewhat difficult to give a correct idea of the color. When it opens the petals are white and margined or penciled with pink to cerise. After two or three days the flowers change to a deep rose, and, unless one is acquainted with it, it would not be recognized as the same Tulip. It stands remarkably well when cut. \$1.25 per 100, \$10.00 per 1000.

Parisian White. Large pure white. \$1.50 per 100, \$12.75 per 1000.

Royal White. Pure white. \$3.00 per 100, \$28.75 per 1000.

NARCISSI AND DAFFODILS

FRENCH GROWN GOLDEN AND SILVER SPUR (For Early Flowering)

Do Not Confuse These With French Trumpet Majors. From the reports of tests on Bulbs sent to some leading growers last year, we decided to import for this season a large quantity of the French-grown Golden Spurs and are expecting to make deliveries very shortly, and offer them till sold as follows. To be successful, plant early.

Golden Spur (French-grown). Will flower to three weeks earlier than Holland stock. \$1.50 per 100, \$14.00 per 1000.

Silver Spur (French-grown). \$2.50 per 100, \$23.50 per 1000.

Mr. A. T. Boddington,

Dear Sir:—The "Silver Spur" Narcissi Bulbs received from you last August flowered on the 10th inst. They are a welcome addition to the list of early-flowering Narcissi. Being earlier than Empress—which it resembles in color—will undoubtedly make it valuable commercially. We think so well of it that it will partly displace the early trumpets on our future Bulb list.

Very truly yours,

DUKE'S FARM,

Somerville, N. J., Jan. 19th, 1912.

(Signed) A. A. Macdonald.

Boddington's "Quality" Christmas-Flowering Sweet Peas

We Are Super-Headquarters

All true stocks of Winter-flowering Sweet Peas will be scarce this season. Some varieties are a total failure owing to the exceptional season in California this Spring. Our advice to intending planters is to order at once.

Mr. Wm. Sim, Cliftondale, Mass., the great Winter Sweet Pea Specialist, sows our seed almost exclusively.

Our stocks of Christmas-flowering Sweet Peas have stood the test for years, and we can refer you to the largest growers of this increasing popular flower, as to the trueness and quality of our seed, earliness of blooming period and strength and habit of plants.

The following varieties are the "best by test" and include Zvolanek's and our own introductions, grown for seed, from selected stocks by the leading California grower and specialist in Sweet Peas.

Our output last year was nearly 3000 lbs. No kicks and plenty of testimonials as to quality, germination and trueness to type.

BODDINGTON'S "QUALITY" SWEET PEAS (For Fall Sowing)

The outlook on Grandiflora and Spencer Sweet Peas for next Spring is very bad. Our growers at the present time cannot promise more than 10 per cent. on our orders, so that we would strongly recommend our customers to buy at once, as later on seed will be scarce and prices probably doubled.

It has become a practice among many gardeners and florists to sow Sweet Peas in the open ground in the Fall. The following we consider the best color varieties for all purposes:

BODDINGTON'S GIGANTIC CYCLAMEN

The seed of Cyclamen is often sown too early in the year; from the middle of August to the end of September is the best time.
